

VERSION WITH MARKINGS TO SHOW CHANGES MADE

In the Claims:

Claims 18, 31 and 32 have been amended as follows:

18. (Amended) The connector according to claim 17 wherein said plurality of features includes a plurality of electrically conductive traces, and wherein each of said plurality of electrodes is in electrical contact with a corresponding one of said plurality of electrically conductive traces.

31. (Amended) The device of claim 29-30 wherein each of the plurality of segments is a flexible connector.

32. (Amended) The device of claim 29-30, further comprising a second additional feature positioned on each of the plurality of segments with respect to the additional set of alignment marks of the respective segment.
